

Short-Short Film Contest Parent Permission Letter

Dear Parents,

Again this year Sedomocha Middle School is having a “Short-Short” film contest that will create an awareness of issues and problems in our community, nation and world. These films will be no longer than 2 minutes, and will focus on something your student cares about very much.

An Awards Committee will judge the films to see which will win the “Oscar” trophy on the Short Short Films Awards night to be held in May.

There will be some after school work, and on occasion it may be necessary for your student to bring home a digital video or digital still camera.

Each student participating will be part of a group with several other participants, so group cooperation and collaboration will be an important skill.

Please review and keep all except the signature pages for your reference. If you have any questions, would like to participate in the Oscar Awards Night (we’ll need refreshments!!), donate prizes, or know someone in the film world who can help, please contact us at school or by email We had a lot of community support for the program last year.

Updates will be posted on the school’s web page.

A DVD of all the submitted films will be available at Awards Night for a donation.

Thanks. *Brad Edwards, Technology Integrationist*
